

## **AGE UK Dementia Support Services**

Age UK Salford's Dementia Support Service (DSS) has been working with families, individuals and professionals since 1998. The service provides community-based advice, guidance and support to individuals with a diagnosis of dementia, and to their carers and families.

The Dementia Support Service offers one-to-one and group-based support across the city and delivers training programmes aimed at supporting carers to develop a better understanding of dementia, to meet other carers to share advice and experiences and to support them in their everyday lives.

We also run a Buddy Service which provides social and activity groups for people with early-onset dementia in the form of local group activities which are easy to access and offer a familiar community environment

For more information about the Dementia Support Service, please contact us using the details below.
